

PROJECT 5

Page 293–294

Steps 3–6 should be completed before opening the Select Focus dialog box. Step 2 on Page 293 should read:

- 2. Hide all layers but the Backstage layer. Make the Backstage layer active in the Layers panel.**

After verifying the transparency of mask channels, Step 7 on Page 294 should read:

- 7. Choose Select>Focus Area. With the Preview option checked, open the View Mode menu and choose Overlay.**
