

## PROJECT 3

---

Page 150, Step 2

For clarification, Step 2 should read:

2. Move the insertion point to the new empty line and insert the **mini-photo.jpg** image from the main site images folder.

## PROJECT 5

---

Page 282

A sidebar should state:

Note: Click Save whenever you are asked to save changes in a related CSS file.

## PROJECT 8

---

Page 410, Step 3

The step should read:

3. If the California site is still available in the list of sites, export the site definition file into your **WIP>Tourism** folder, and then remove the California site from the dialog box.
